MEMORANDUM

SUBJECT: Health Impacts of Chlorine Emissions from a Hazardous Waste Incinerator at the Monsanto-Queeny Plant

FROM: Michael J. Sanderson
Chief, RCRA Branch

TO: Dan Harper
Senior Regional Representative
ATSDR

Attached are chlorine emission modeling data and location information for the hazardous waste incinerator at the Monsanto-Queeny Plant in St. Louis, Missouri. We request that you assess the health impacts of these emissions, if any, on the residents in the surrounding area. The nearest houses or apartments are located on Seventh Street as indicated on the attached property plat.

We require this information by September 22, 1989. If you have any questions, contact John Smith, of my staff, at (913) 236-2888.
